

Resume

Personal details

Name	Khadar Ali Aqli
Email address	khadaraqli@students.diu.ac
Phone number	+252654242420
Address	Hargeisa, Somaliland Hargeisa
Nationality	Somaliland
Website	github.com/khadaraqli
LinkedIn	linkedin.com/in/eng-khadar-aqli

Profile

Results-driven Computer Scientist and strategic leader with an MSc in Computer Science and 15+ years of cross-functional experience in IT infrastructure, maritime operations & logistics, leadership & team management, financial auditing & accounting, and legal writing & regulatory compliance. Proven expertise in leveraging AI and digital technologies to optimize port operations, achieving a 15% reduction in delays and 20% improvement in efficiency. Adept at designing scalable systems, implementing robust controls, and driving digital governance initiatives in dynamic emerging markets.

Education

2016 - 2017	Master of Science in Computer Science Dhaka International University, Bangladesh - Thesis: "Optimizing Logistics Networks Using AI" - Coursework: Machine Learning, Algorithms, Network Security
2012 - 2015	Bachelor of Science in Computer Science Admas University, Hargeisa Focus: Programming, Systems Administration, Computer Science fundamentals
2007 - 2011	GCSE – Secondary Education Farah Omar Secondary School, Hargeisa
1999 - 2007	PSC – Primary Education Sheikh Madar Primary School, Hargeisa

Employment

Jan 2020 - Present	Assistant Operations Manager Pacific International Lines (PIL), Berbera Port, Somaliland
--------------------	---

- Directed daily port operations and high-volume container logistics, coordinating multi-stakeholder teams for seamless throughput and vessel turnaround.
- Designed and implemented an AI-powered real-time shipment tracking system, reducing operational delays by 15%.
- Spearheaded biometric security & monitoring project delivering 20% increase in operational efficiency; recognised by senior management for innovation.
- Maintained 100% compliance with international maritime safety standards, customs regulations, and legal documentation requirements.

Jan 2024 - Jan 2025

**Auditing & Accounting Specialist
International Maritime Shipping Services (IMSS)**

- Performed comprehensive financial audits, payroll processing, and financial statement analysis for maritime logistics operations.
- Strengthened internal controls and risk management frameworks through detailed compliance reviews and regulatory reporting.
- Prepared high-quality audit documentation and legal correspondence supporting regulatory adherence.

Jan 2019 - Dec 2019

**Admin & Finance Officer
Global ICT Institute of Technology**

- Automated financial reporting processes using advanced Excel tools and database integration, significantly improving accuracy and speed.
- Managed accounting records, budgeting support, and internal financial controls.

Jan 2019 - Dec 2019

**Lecturer & Manager — Computer Science
New Generation University College & Horsed Computer Science Institute**

- Delivered undergraduate courses in Computer Networking, Cybersecurity, and Systems Administration to 200+ students.
- Received Excellence in Teaching Award for innovative instruction and high student engagement.

Jan 2018 - Dec 2019

**Commercial Staff
WBH Bill Clark Shipping**

- Managed end-to-end shipping documentation, bills of lading, customs clearance, and international trade compliance.
- Drafted and reviewed legal and commercial documentation for smooth cross-border operations.

Jan 2013 - Dec 2016

**Assistant Manager
Dhidar Company**

- Led team operations and designed network infrastructure upgrades enhancing system reliability.
- Managed daily administrative and operational processes with a focus on efficiency and team development.

Jan 2005 - Present

**IT & Network Assistant
Africa Online, Hargeisa**

- Supported network infrastructure setup, maintenance, troubleshooting, and end-user technical support.

Skills

Leadership & Management	Excellent
Digital Transformation	Excellent
Project Management	Excellent
E-Governance	Excellent
Strategic Planning	Excellent
Python	Excellent
Java	Very good
C++	Very good
Django	Excellent
Spring Boot	Very good
Docker	Excellent
Kubernetes	Very good
Network Design (CCNA)	Excellent
Cybersecurity	Excellent
Wireshark	Very good
Scapy	Very good
OWASP	Very good
SQL	Excellent
PostgreSQL	Excellent
MongoDB	Very good
Machine Learning	Excellent
TensorFlow	Excellent
AI Logistics Optimization	Excellent
Financial Auditing	Excellent
Internal Controls	Excellent
Payroll Management	Excellent
Legal Writing	Excellent

Port & Container Operations	Excellent
Supply Chain Management	Excellent
Customs Clearance	Excellent
Blockchain (Ethereum / Hyperledger)	Very good

Languages

Somali	Fluent
English	Very good
Arabic	Good

Courses

2016	CCNA Routing & Switching
2026	Data Science
2025	Leadership & Change Management
2025	E-Governance & Digital Administration
2025	Legal Writing
2026	Accounting & Financial Statements
2026	Auditing / Business Accounting / Payroll
2025	Human Resource Management
2025	MS Excel – Formulas & Functions
2026	AI Tools & ChatGPT Master
2026	Building Effective Teaching Strategies
2026	English Language Certificate

Research & PhD Agenda

Proposed PhD Title "Designing Secure and Scalable Digital Governance Architectures for Emerging States" Research focuses on bridging IT infrastructure and governance systems through secure, scalable, interoperable digital solutions. Methodology includes comparative analysis of EU digital governance systems, systems architecture modelling, cybersecurity risk assessment, and prototype framework development. Expected Contributions: · A digital governance reference architecture model for emerging states. · A cybersecurity-integrated public systems blueprint. · An adaptable framework for developing and post-conflict

states.

Volunteer Experience

2023	IT Literacy Coordinator Hargeisa 2023–Present
2021 - 2022	Maritime Safety Volunteer Berbera Port 2021–2022
2020 - 2020	Cybersecurity Awareness Hargeisa Tech 2020

Key Achievements

	AI tracking 15% delay reduction
	Biometric system 25% faster processing
	Operational efficiency gain 20%
2019 - 2019	Excellence in Teaching Award 2019
	Students impacted 200+
2016 - 2016	CCNA top scores Dhaka 2016

Key Projects

	AI Logistics Tracking Web Application Full-stack real-time shipment tracking system integrating GPS data with port systems. Delivered 15% reduction in processing delays and improved cargo visibility for all stakeholders. Technologies: Python (Django), PostgreSQL, Docker, JavaScript
	AI Logistics Optimizer ML-based tool to predict optimal supply chain routes, reduce fuel consumption, and minimise delays. Developed as part of MSc thesis and piloted at port facilities. Technologies: Python, TensorFlow, Scikit-learn, Google Maps API
	Biometric Security Implementation — Berbera Port Designed and deployed biometric access control and monitoring at Berbera Port. Reduced processing times by 25% and achieved 20% efficiency gains; recognised by Berbera Port Authority (2023). Technologies: Biometric Access Control, CCTV, Monitoring Systems
2023 - 2023	

Network Security Monitoring Tool

Script-based network traffic analyser for real-time vulnerability and anomaly detection, integrated with cloud monitoring for instant alerts and reporting.

Technologies: Python, Scapy, AWS CloudWatch

Professional Trainings

Shipping & Maritime

Port & Container Handling, Cargo Documentation & Customs Clearance, Maritime Safety & First Aid, Ship & Port Communication Systems, International Trade & Port Coordination, Supply Chain & Logistics Tracking Systems

IT & Networking

Network Security, Advanced Routing & Switching, Cybersecurity, Biometric Systems Management, CCTV Installation, Database Management & SQL, Network Infrastructure Deployment

Auditing, Accounting & Governance

Fundamentals of Business Accounting, Payroll Systems, Auditing Principles & Internal Controls, Financial Statement Analysis, E-Governance & Digital Administration, Leadership & Organizational Development, Legal Documentation & Policy Interpretation

Testimonials

Operations Director, Pacific International Lines

Khadar's integration of IT solutions into our shipping operations transformed our efficiency. His expertise in AI for logistics is unmatched.

Dean, New Generation University

As a lecturer, Khadar inspired students with practical insights into cybersecurity. His leadership was exemplary.

IT Manager, Dhidar Company

Khadar's network security tools provided robust protection for our systems. Highly reliable and innovative professional.
